Embargoed for 15<sup>th</sup> April 2015

## **Agricultural Bank of China and SAS Software (Beijing) win The Operational Risk Technology Implementation of the Year Award 2015**

- **Deployment of the Modelling Lab to provide a unified technology platform**
- **Establishing an enterprise decision-making support platform**
- **Improving the management of IT system operation risks**

**Hong Kong, April 15<sup>th</sup> 2015 - Agricultural Bank of China** and their technology partner **SAS Software (Beijing)** have been named as winner for **The Operational Risk Technology Implementation of the Year** following the completion of The Asian Banker Risk Management Awards Programme 2015. The programme is administered by The Asian Banker under its prestigious annual Business Achievement Awards programme.

### **Deployment of the Modelling Lab to provide a unified technology platform**

Agricultural Bank of China (ABC) has deployed the Modelling Lab, which will provide the bank with a unified technology platform and risk management solution that is at the cornerstone of its business development and customer relationship management.

### **Establishing an enterprise decision-making support platform**

The Modelling Lab is designed to create an enterprise decision-making support platform, which focuses on risk management and other business units across the bank and provides model development, parameter calculation and verification services.

### **Improving the management of IT system operation risks**

This project also allows for IT system to make sub-health prediction and warning by using big data analytics to improve the management of IT system operation risks.

The awards programme, administered by The Asian Banker and refereed by prominent global bankers, IT consultants and academics, is the most prestigious of its kind. A stringent three month long evaluation process determined the winners from across Asia Pacific, Middle East and Africa. The winners were honoured at a gala event that recognized their efforts in using the best technology to run their institutions and bring superior products and services to their customers
